

Chef Yum Yum welcomes the new year as our classroom is transformed in the life 'Under the Sea'! First we will be mastering our math skills as we count fish and learn about graphing! As we continue to learn about sea creatures, we will create our very own Starfish Sandwich! To wrap our month, a tour around Chef Yum Yum's kitchen will teach us about the various tools we can use to cook! Encourage your child to tour your kitchen at home and identify any tools that Chef Yum Yum uses too!!

Love, Chef Yum Yum
