

This month, Chef Yum Yum jumps into outer space with some out of this world fun! For our first adventure, tasty rocket ships will send us into the galaxy as we explore our solar system. Our next stop will be creating a delicious moon snack. We will also celebrate the planet we live on with an Earth Day treat. Finally, on Kitchen Tip Friday, we will learn all about our 4 Food Groups which help our bodies grow and move.

Love, Chef Yum Yum
